

MATERIAL CARE AND MAINTENANCE

At DVS, every piece of furniture and product is designed for longevity — combining quality materials with precision craftsmanship. Proper care helps preserve your furniture's beauty and functionality for years to come.

Below is a simple guide on how to care for the different materials used across our product lines.

Worktops & Surfaces

Common materials: Melamine (MFC), MDF, HPL, Compact Laminate, Veneer, Solid Wood, Plywood, Edge Banding, Painted or Lacquered Finishes

Care & Cleaning

- Wipe surfaces regularly with a soft, damp microfiber cloth.
- Use mild soap or diluted neutral detergent if needed, then dry immediately.
- Avoid strong solvents, alcohol-based cleaners, or abrasive sponges that may damage finishes.

Protection Tips

- Use coasters or desk mats to prevent stains, heat marks, and scratches.
 - Avoid prolonged exposure to sunlight or moisture.
 - Do not place hot objects directly on the surface.
-

Frames & Structural Components

Common materials: Powder-Coated Steel, Aluminum, Stainless Steel, Motorised Columns, Adjustable Mechanisms

Care & Cleaning

- Clean metal parts with a damp cloth and mild detergent.
- Avoid excessive moisture to prevent corrosion.
- Lubricate mechanical joints occasionally if recommended.

Protection Tips

- Ensure even weight distribution to prevent strain or bending.
- For height-adjustable tables, keep movement paths clear of obstacles.
- Do not apply excessive force or sit/stand on non-load-bearing parts.

Panels, Screens & Dividers

Common materials: Fabric, Acoustic PET Felt, Glass, Acrylic, Laminate, Vinyl, Metal Frames

Care & Cleaning

- **Fabric, PET Felt:** Vacuum gently or use a lint roller to remove dust. Spot clean with a damp cloth or mild upholstery cleaner.
- **Glass, Acrylic:** Use a non-ammonia glass cleaner and a soft cloth. Avoid paper towels that may cause fine scratches.
- **Vinyl, Laminate:** Wipe with mild detergent and water; dry with a clean cloth.

Protection Tips

- Avoid sharp or heavy impacts.
 - Do not use alcohol or acetone-based cleaners on acrylic surfaces.
-

Seating & Upholstery

Common materials: Fabric, Mesh, PU Leather, Genuine Leather, Foam

Care & Cleaning

- **Fabric/Mesh:** Vacuum regularly; blot spills immediately. Use fabric-safe cleaners for spot cleaning.
- **PU Leather:** Wipe with a damp cloth and mild soap; avoid alcohol or oil-based solutions.
- **Genuine Leather:** Use a soft, dry cloth and occasional leather conditioner to maintain suppleness.

Protection Tips

- Avoid direct sunlight or heat sources that can fade or crack upholstery.
 - Do not use sharp objects or solvents.
-

Decorative & Specialty Surfaces

Common materials: Marble / Quartz Laminate, Metal or Brass Finish Laminate, Stone-Look Surfaces, Recycled Plastic, Decorative Films

Care & Cleaning

- Wipe gently with a soft, damp cloth.
- Avoid acidic or abrasive cleaners that may dull the finish.
- Dry thoroughly to maintain surface sheen.

Protection Tips

- Use felt pads under accessories and decor to prevent scratches.
- Avoid dropping heavy objects or applying high impact on decorative surfaces.

Sustainability & Aftercare

DVS is committed to environmental responsibility. Our wood-based products use **E0/E1-compliant boards** for low formaldehyde emissions, and our acoustic panels are made from **recycled PET fibres**.

Should your furniture require servicing, adjustments, or replacement parts, please contact our **DVS After-Sales Support Team** for professional assistance. Do not attempt to dismantle electrical or height-adjustable components yourself.

Built to Last, Designed to Evolve.

Every DVS product is crafted with care — combining form, function, and flexibility for spaces that grow with you. Let us Reimagine Space with you, together.
